

SUBHRANSU ROUT

Cybersecurity Enthusiast | BCA Student | Aspiring SOC Analyst

Banki, Odisha, India | +91 9776563427 | routsunhransu@gmail.com | linkedin.com/in/subhransu-rout | github.com/cyber-subh

PROFESSIONAL SUMMARY

Motivated BCA student and cybersecurity enthusiast with a strong foundation in networking, operating systems, and cybersecurity fundamentals. Hands-on experience with Kali Linux, Python, and Linux environments through academic and independent cybersecurity projects. Completed a Python programming internship and worked as a Customer Support Associate, building strong communication, analytical, and problem-solving skills. Currently pursuing the Microsoft SC-200 (Security Operations Analyst) certification, with a focus on Security Operations (SOC), Offensive Security, and continuous learning. Seeking an entry-level opportunity to contribute to a professional cybersecurity or IT security team.

TECHNICAL SKILLS

- Programming Languages: Python
- Operating Systems: Windows, Linux (Kali Linux)
- Networking & Protocols: TCP/IP, DNS, HTTP/HTTPS, OSI Model
- Security Concepts: Security Operations (SOC) fundamentals, Offensive Security basics, Cybersecurity fundamentals
- Tools & Platforms: Git (Basic), Kali Linux, Linux command line

PROFESSIONAL EXPERIENCE

Python Intern — SouriketTech Pvt. Ltd.

45 Days

- Developed Python applications and completed practical assignments to strengthen core programming fundamentals.
- Collaborated with a team in a structured learning environment, applying problem-solving skills to real coding tasks.

Customer Support Associate — Swiggy

3 Months

- Resolved customer issues efficiently in a fast-paced environment, maintaining high service quality standards.
- Strengthened communication, analytical, and problem-solving skills through direct customer interaction.

PROJECTS

Edu Nova — Library Management System (Python)

- Designed and developed a library management system in Python to streamline book management and user records.
- Applied object-oriented programming (OOP) concepts and logical problem-solving to build a functional application.
- Repository: github.com/cyber-subh/EduNova-Public-Library

EDUCATION

Bachelor of Computer Applications (BCA) — Banki Autonomous College

Expected 2027

12th Standard (Science) — Krypton Science H.S. School

73%

10th Standard — Tulasipur High School

73.66%

CERTIFICATIONS

- Microsoft SC-200: Security Operations Analyst — In Progress
- Linux — TuteDude
- Cybersecurity Basics — TuteDude
- MERN Stack Developer — Apna College

ADDITIONAL SKILLS

- Strong passion for technology, computers, and cybersecurity
- Quick learner with adaptability to new tools and technologies
- Effective time management and self-driven work ethic
